

# CommonBond COMMUNITIES

CommonBond Communities builds stable homes, strong futures, and vibrant communities. This work is possible because of the contributions of our donors and partners. Organizations find that engaging with CommonBond feeds their own missions, provides valuable team building and identity benefits and communicates their values to their stakeholders. Here are just a few examples of how individuals and organizations engage with CommonBond. We welcome your ideas about your ideal engagement with our mission.

## VOLUNTEERISM

CommonBond welcomes volunteerism with our various programs. Whether focused on business expertise, opportunities for team-building, or as a way to connect leaders of all levels to mission focused opportunities.

## CHARITABLE GIVING

Both individuals and corporations find that CommonBond provides maximum impact for their charitable giving dollars.

## SPONSORSHIP

Our Grande Gala and Birdies for Hope events are excellent ways to promote corporate brands and align with our mission. We continually explore new events and sponsorship opportunities that align with corporate goals and our objectives.

## IN-KIND

Many organizations have expertise that can help CommonBond in functional areas. Further, we welcome contributions to be used for auctions, donor engagement, recognition, etc. such as tickets, fan experiences, or product.

## VISIBILITY

Businesses often seek to increase awareness of their commitment to key issues in their community by co-branding or messaging. This highlights corporate social responsibility and values, and allows mutual sharing of brand position.
